## 1. Web Design

This site is [catatonic](#)  
[Valid HTML](#)  
and [Valid CSS](#)  
compliant. See how beautiful [CSS](#) can look at the [CSS Zen Garden](#). [CSS Play](#) has lots of CSS demos and tips.

The articles are written in [Simplified Docbook XML](#), a subset of [Docbook](#)

Work in progress - experimental

[X3D](#)  
view of this site

This site is [built with Apache Forrest](#)  
(inspired by the [Blumenfeld&Maso site](#))

The [XML](#) source is edited with [XEmacs](#)  
, [GNU Emacs Carbon Emacs](#), and [Aquamacs](#).

Some images are processed with [Graphics by GIMP](#)

3D renderings were created with the [WordsEye](#) system from [Semantic Light](#).

The Technicat logo was created by [Shane Nakamura Designs](#).

Previous versions of this web site are stored at the [Internet Archive](#). Avoid [web sites that suck](#).

Phil's [personal site](#) is created with [iWeb](#), and his [blog](#) runs on [WordPress](#).

[Fugu Games](#) is handcrafted with XHTML and CSS.

## 2. Policies

[System Administrator](#)  
This site supports the [Platform for Privacy Preferences \(P3P\)](#). The P3P [policy file](#) and [policy text](#) were generated from [IBM P3P Policy Editor](#) and then edited using [XEmacs](#). More electronic privacy information is available at

Site Info

and the [Electronic Frontier Foundation](#)  
and the [Electronic Privacy Information Center](#),
